AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

INTRODUCTION

LOS ANGELES DIRECTORY CO., publishers of the Monrovia, Arcadia, Duarte Directory, as well as many other city and county directories, present to subscribers and the general public, this the 1950 edition of the Monrovia, Arcadia and Duarte Directory.

Confidence in the continued growth of the communities' wealth and population, and in the advancement of municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting the community to the world.

The enviable place occupied by Los Angeles Directory Co.'s directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Monrovia, Arcadia and Duarte Directory will fulfill its mission as a source of authentic information pertaining to the community.

Population

The estimated population of Monrovia is 21,000, based on the number of individuals' names in alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory. The population of Arcadia is estimated at 22,000, and of Duarte 3,500.

Five Major Departments

The several essential departments are arranged in the following order:

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations for Monrovia is included in pages 17 to 200, on white paper. A similar list for Arcadia is contained in pages 273 to 452, and Duarte in pages 533 to 596.

THE DIRECTORY OF HOUSEHOLDERS, TENANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES AND STREET AND AVENUE GUIDE for Monrovia covers pages 201 to 272, on pink paper. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers. Home property ownership is indicated by the character ◎ placed immediately after the name of the householder. The symbol ♙ preceding name denotes householders and places of business having telephones. A similar guide for Arcadia is contained in pages 453 to 532.

THE BUYERS' GUIDE of Monrovia, opposite page 596 and separately paged from 1 to 56, on golden rod paper, contains the advertisements of leading manufacturing, business and professional interests of Monrovia. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The community's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like Monrovia the necessity of having this kind of information immediately available, is very great and, frequently, pressing.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 597 to 680, on white paper. This department lists the various manufacturing, mercantile and professional interests of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE NUMERICAL TELEPHONE DIRECTORY for Monrovia is given in pages 681 to 720, and Arcadia in pages 721 to 772, on white paper.

Community Publicity

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence and as a business location. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of the community, for business men, everywhere, realize that the city directory represents a community as it really is.

The Monrovia Directory Library

Through the courtesy of the publishers of the Monrovia, Arcadia and Duarte Directory, a Directory Library is maintained in the offices of the Monrovia Chamber of Commerce for free reference by the general public. This is one of the more than 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

★

Monrovia is located 18 miles northeast of Los Angeles on Foothill Boulevard, a part of the National Old Trail, at the base of the Sierra Madre Mountains overlooking the San Gabriel Valley and Highway 66. The elevation is from 450 to 1,200 feet, with an estimated population, as of July 1, 1950, of 21,000 people.

Monrovia is on the main line of the Santa Fe, a branch line of the Southern Pacific and the Pacific Electric railways, with through bus service to all points. Location, transportation, reasonable real estate values, ideal living conditions, excellent educational facilities and an adequate supply of labor make Monrovia exceptionally well adapted for homes or industries.

Monrovia is internationally known as a health resort, and is the home of the Pottenger Sanatorium, famous for its successful treatment of tuberculosis.

A Chamber of Commerce that is well equipped and glad to be of service to visitors, and to its community, will furnish specific information upon request.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for THREE HUNDRED and FIVE days, therefore—

Directory of Householders

Occupants of Office Buildings and Other Business Places Including a Complete

Street and Avenue Guide

1950

Copyright, 1950, by Los Angeles Directory Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical streets are compiled following the Named Streets.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol ♙ preceding name denotes householders and places of business having telephones.

(This section includes some listings reading "No return." In each case the publishers tried diligently, by various means, to obtain the information for the occupant but were unsuccessful. First, several personal calls were made by an enumerator; next, a double post card was mailed and the telephone used when possible).

ARCADIA

Arcadia Is A City of Homes.

Rancho Santa Anita one hundred years ago was the beginning of today's Arcadia.

Arcadia is the home of Arcadia County Park, 185 acres of beautifully developed recreation grounds providing most every kind of popular outdoor sports. One of the finest 18-hole golf courses in California, large swimming pool, tennis courts, lawn bowling, regulation baseball field with 4,800 capacity grandstand, and many other sports, with a 30-acre picnic grounds.

Northwest across the boulevard from the Recreation Park is Santa Anita Race Track, 405 acres of grounds, track, stables and parking. It is conceded the most beautiful racing plant in America, and the largest purses in the nation are paid at its winter racing meet.

The Pony Express Museum contains a vast collection of early California relics, appealing to all who love the romance of early western history. It adjoins Arcadia County Park, reached by Pacific Electric Railway.

Arcadia offers a great deal to the family seeking the quiet of suburban life, without the exhorbitant costs of so-called exclusive districts. Several fine boulevards provide a 30-minute drive to Los Angeles, with the driver's back to the sun both morning and evening.

The average homesite is from one half to five acres and the average cost of houses constructed during the past years is approximately $10,000.

Its rapid growth of the past few years is the best evidence of its attraction for those seeking the quiet of suburban life, in surroundings of natural beauty.

EVERY STORE

should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer looks for.

The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

Good Business Insurance

Your advertisement in the City Directory with proper business listings insures your business against loss of trade.

The manufacturer or business institution that overlooks this fact is not building for the future.

The City Directory is active 365 days every year –let it serve you as it does others.

Our representative will be pleased to call and explain the value of reference advertising.

Directory of Householders

Occupants of Office Buildings and Other Business Places Including a Complete

Street and Avenue Guide

1950

Copyright, 1950, by Los Angeles Directory Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical streets are compiled following the Named Streets.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol ♙ preceding name denotes householders and places of business having telephones.

(This section includes some listings reading "No return." In each case the publishers tried diligently, by various means, to obtain the information for the occupant but were unsuccessful. First, several personal calls were made by an enumerator; next, a double post card was mailed and the telephone used when possible).

YOUR CITY DIRECTORY

IS SOMETHING MORE THAN—

A Catalog of Trades and Professions
A Book of Names and Addresses
A Street Guide

It is a **SERVICE** that brings you daily in closer touch with your customers and friends.

IT ENABLES YOU to address them each and every one.

To avoid the offense of incorrect spelling and addressing.

To find new customers.

To tell who lives in any house in the city.

To find local sources of supplies for hundreds of articles

IT WILL SAVE YOU time and money both in buying and selling.

It will make you more efficient and will protect your standing as an accurate and progressive business man.

Your directory gives you an accurate bird's-eye view of your City, its institutions, inhabitants, government and buildings.

ALWAYS USE THE LATEST EDITION

TRADE!

You like to patronize those concerns who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution.

It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such fundamentals as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

Remember Each Day

That the City Directory affords you the best medium for reaching all classes of people, and insures you a widespread publicity at a cost small in proportion when compared to that of other mediums.

GOOD BUSINESS INSURANCE!

Your advertisement in the City Directory with proper business listings insures your business against loss of trade.

The manufacturer or business institution that overlooks this fact is not building for the future.

The City Directory is active 365 days every year—let it serve you as it does others.

Our representative will be pleased to call and explain the value of reference advertising.

Power of Advertising

The CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase.

If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

WHY A BUYERS' GUIDE?

★It is customary to include a Buyers' Guide in the City Directory because : : :

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED

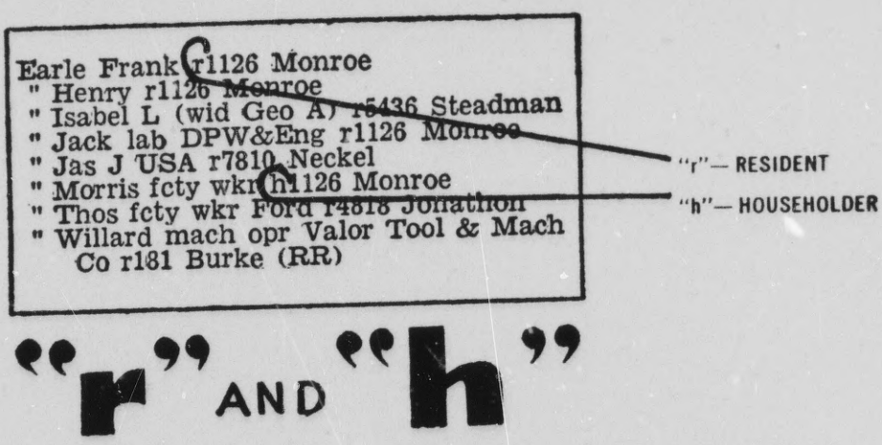
Know Your Directory SYMBOLS



"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r", before an address stands for "Resident". That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

HOW TO USE THIS DIRECTORY

To get the most good from this Directory you must know what it contains and how to use it.

You can not get this knowledge by glancing hastily through the book, and assuming that your mind grasps a full idea of its contents from the name.

Read the Title Page, front of Book, and glance over the Index.

A Unique Service Provided By The Publishers of Your City Directory

The publishers of this Directory maintain for the use of their subscribers and the general public a complete library of late out-of-town City Directories. We invite you to consult this library when in need of names and addresses of individuals and firms in other cities. It is especially designed for the reference use of business men who subscribe to the local City Directory, when seeking markets and sources of supply outside this city. There is no charge except for extended continuous use. The library, with attendant in charge, is located at:

Monrovia Chamber of Commerce
112 West Lime Avenue
Monrovia, California

Your City Directory has

HUNDREDS OF USES AND APPLICATIONS
